

Dear Jill

Here are some testimonies

In the beginning of March 2018 our sister Assel (which is "honey" in the Kazakh language) had a visit to a doctor and she was said she has a cancer in her loin and had metastasized into her female organs. So, that was terrible news for all of us, we started praying for her with faith and perseverance.

She was able to take medical care in Istanbul, Turkey three times every three months (surgery, radiation and chemo). It hardly helped and she began to loose her weight as well as hope. But by the grace of the Lord, we kept fasting and praying and believing that she was going live. It was too early for her to go to Heaven because she is still young (32 years old) and she is a mother of two pretty little girls.

By Divine appointment Michael and Jill O'Brien came to our city to serve two churches in Karaganda. I was invited by pastor Sergei Serov as an interpreter to help Jill on a Sunday service at his church. The message was powerful and people were prayed for and some of them were delivered. When the service was over, we had lunch and I had to run to my church service (Kazakh Christian Fellowship) that starts at 2.00. p.m.

As I entered for the service the spiritual atmosphere immediately changed as we kept worshipping God. I felt a strong presence of the Lord and my sermon was little bit different than it's used to be. Something changed. The power of the Lord started manifesting. There was a Russian lady that came to our Kazakh service and I felt that I had something to tell her from the Lord. So, I asked her to stand up and the message was released to her. There was a word of knowledge and prophetic words to her situation. I never have done this before. And God hit the bull's eye!!! She started crying and thanking God for His love and mercy. So, this lady is still in good spiritual shape full of faith and hope.

I strongly believe that I "caught something" from Jill from the very first day. So, her anointing was transferred to me, I guess.

I was asked to help this blessed couple (Michael and Jill) translate another two days as they are going to minister people privately. So, I did it with joy and expectations that I would get more from them.

Next Monday, Asset with her husband Ulhās came to them for prayer. And it started!!! It turned out that our "Honey" had demonic influence that caused cancer to embrace her body. Michael received revelation by discernment that she has two ancient demonic spirits (two snakes) in her body that were caused by a generational curse. So, all of us (there were about 8 people in the room including her husband) started praying for deliverance. So, the spirits started manifesting themselves and there was a big

prayer battle for over an hour. Finally, she was delivered, her face became brighter and we knew that these two demons were gone. It's been almost one month since she received deliverance and there is no pain, no insomnia, no hallucinations, she is doing just fine and she has begun to gain weight, and depression is gone. Now, she is back on the worship team again! Assel is back!

There are too many testimonies that have happened since Michael and Jill prayed for me so I can't write them all. But I will share with most strong ones.

2) When the O'Brien's left home I was so hungry for the Holy Spirit and wanted to have what they have. November 14th, on my birthday, I went to my prayer room in the church as usual. As I started praying suddenly, I was slashed to the floor and started crying and weeping in His presence, I have never experienced this before. So, I couldn't get up so I laid down praying. Something entered inside my spirit and I was wrapped up by His love and presence. Suddenly in about one hour and a half it was gone and I became "normal" again.

3) The next day, the Lord gave me the prophetic words for some church staff and the walls between us were brought down. The prophecy and word of knowledge started manifesting through me as I ministered to people.

4) On Friday, we went to another small town to visit a Kazakh Christian family who are willing to start a Kazakh ministry in their church. As we are having a dinner and talking to each other, I asked the husband to come forward to pray for their start of their ministry. The word of knowledge and prophecy took place again and this man's faith was built up. Then, one lady started crying and begged us to pray for her brother who has gangrene on his leg and a doctor said it should be cut off otherwise he would die. So, the Lord lead me to say to her, "come forward and get a cloth so that we can pray for this cloth and go put it on his rotten leg." As we prayed, my right leg from knee to toe became hot, then I asked her what kind of leg issue was he having, she said the right one. So, I accepted by faith that it was a sign from the Lord of His Divine healing. The lady went to her brother and did what we said. Two weeks later, I had a message from this lady saying this: "my brother has received a healing miracle! His rotten, gangrene dried up and disappeared! And he repented and accepted Jesus Christ as the Lord".

5) I had two great experiences of intercession prayer. I was agonizing in the spirit and crying out lying on the floor and couldn't stop. I knew it wasn't out of my flesh, but out of my spirit. I received revelations about these two people on their soul's healing. Healing eventually happened!

6) Our Kazakh church services have become alive, empowered by the Holy Spirit and we have started to grow in numbers. We are operating with the gifts of the Holy Spirit in our meetings. There are too many things happening almost every day, so I can't

write them all.

I strongly believe that meeting with Michael and Jill was not accidentally, it was God's plan to help our Kazakh fellowship so that we can be empowered by His Spirit to bring our Kazakh nation to Christ. This was an answer to my prayers as I have been seeking a way out of our ministry situations. I was ready to quit and give up because over the years we didn't have much fruit of the ministry. But praise the Lord He didn't let it happen to me.

Yermek Balykbekov, (pastor of growing) Kazakh Christian Fellowship in Karaganda, Kazakhstan.
